## FOREWORD

It was a difficult decision but after much contemplation, I have decided to disperse of the Errigal flock after 17 wonderful years.

The Errigal flock was established in 2007 with the purchase of 3 inlamb gimmers and 3 ewe lambs from Shannagh & Castleisle Suffolks. The most notable ewe lamb was sired by Castlewellan Kruger and she went on to breed PBH:12:001 by Errigal Simply the Best. She was the dam of Errigal Enterprise. In 2008 we purchased 3 inlamb gimmers at Baileys Productions Sale which included the well known Baileys J110. In 2009, the dispersal of the Castlewellan flock brought

about a rare opportunity to purchase from the best breeder in the British Isles at that time. This dispersal led to the purchase of 3 inlamb gimmers and 1 ewe lamb. The most notable of them was the Castlewellan L82 dam of the famous Errigal Simply the Best. The bloodlines from the above mentioned flocks formed the foundation of Errigal females. In the early years when female numbers were low we purchased semen from Cairness and Strathisla, two of the leading flocks in the breed. We continued to replenish year after year by purchasing top quality females and a select number of high profile rams. We always retained our best females and a few of our top rams.

The flock has produced some outstanding rams. Some that come to mind are Errigal Dundee, Errigal Simply the Best, Errigal Everest, Errigal Enterprise, Errigal Golden Horn, Errigal Galileo, Errigal Rockefeller, Errigal Hard Rock, Errigal Outstanding, Errigal Equaliser, Errigal Enzo, Errigal Grim Reaper, Errigal Masterpiece, Errigal Perfection, Errigal Volcano, Errigal Boomerang, Errigal Best Mate and Errigal Bahama Breeze.

Our branding has been

***“ERRIGAL where dreams do come true!”***

Winning the National Championship 2011 with Errigal Simply the Best was just that... a dream come true.

# ERRIGAL DISPERSAL

Not often is a flock of this caliber offered for sale. This sale is a complete dispersal of all females. We have already sold all of our males but there will be a sale of semen announced at a later date. This will be an exciting opportunity for breeders both new and established to source genetics from one of Ireland's leading flocks.

The Errigal flock has had considerable success at shows and sales in Ireland, North and South. Most notable winning the National Championship 2011, Novice Champion 2010 and Reserve Overall Champion at the Premier Sale 2018. We had the highest priced ram lamb sold in Ireland and the highest average also. Errigal bred sheep has had considerable success at shows throughout Ireland and in mainland Britain and Europe.

Most notable: West of Ireland Champion, Great Yorkshire Show Male Champion, Reserve Overall Champion and the Royal Highland Show Aged Ram Champion.

We believe this is an ideal opportunity for new and established breeders to replenish with some of the best genetics in the breed today.

- Lot 10 to 30 are descendants of Castlewellan L82 dam of Errigal Simply the Best.
- Lot 31 to 38 are descendants of Baileys J100 dam of Errigal Dundee.
- Lot 39 to 51 are descendants of PBH:12:001 dam of Errigal Enterprise.
- Lot 52 to 67 are descendants of Cairnton KLR:12:028 twin sister to Cairnton the Cracker.

All sheep in the flock are genotype ARR/ARR.

We would like to take this opportunity to thank John Doyle auctioneer and his team, Ian Donald for his professional grooming service, Aaron Boyle from AB Livestock Photography and everyone who helped in preparation for this sale. We are forever grateful for the overwhelming support that has been shown.

Finally, we would like to thank our customers and take this opportunity to wish everyone the best of luck today with their new purchases. May you have as much success and happiness that we have had over the years and continue to make dreams come true.

*Best wishes,  
Seamus Browne.*

**Important: The Pedigree Information printed in this catalogue is as supplied by or on behalf of the breeder. The responsibility for the accuracy of the information therefore rests solely with the breeder and not Sheep Ireland.**

Evaluations should **never be the only tool** you use when selecting animals for breeding. Animals must also be examined to ensure the animal is also physically correct; an animal that is not physically correct (ie. mouth, feet, etc.) cannot compensate for this fault regardless of its evaluation and should be avoided for breeding purposes. See below how to interpret the €uroStar catalogue.

## ★★★★★ €uroStars – How to interpret them

- Each star represents where the animal ranks on each index in 20% bounds
- **One star** represents the **bottom 20%** of the breed for that trait
- **Five star** represents the **top 20%** of the breed for that trait
- The higher the stars, the higher the predicted profitability of that animal

Animals that only have the outline of a star represent animals that have within flock evaluations, this means the star rating of these animals cannot be compared to any other animals from a different flock.

### Rank

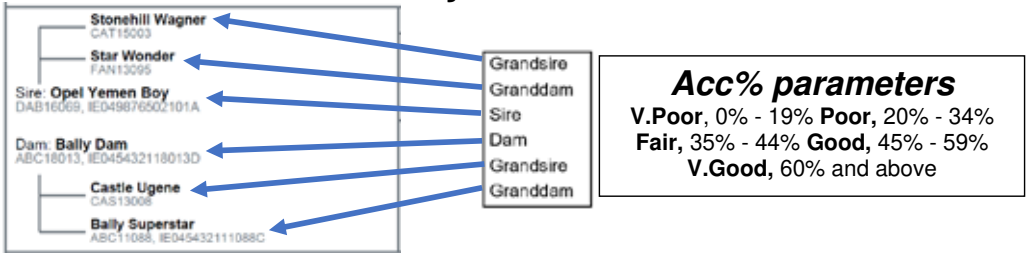

- This figure indicates more precisely where the animals rank within the breed. eg. Top 16% (see example below)
- This is displayed with a shaded line, the further to the right these are on the scale, the better its position within the breed.

## Acc% (Accuracy%)

- This figure is very important as it represents the amount of data behind each evaluation. Where Acc% is low, much less emphasis should be placed on the evaluation, and vice versa.
- Accuracy is displayed for the Replacement & Terminal Indices. It is not displayed for the four sub-traits. If an animal has high accuracy on Replacement & Terminal, it will be high accuracy across all traits.

## Ancestry Information

**1) Replacement (€3.44)** – If a farmer desires a ram to breed both lambs both for slaughter and replacement ewe lambs then they should select a ram based on this index. The bulk of this index is a combination of Lamb Survivability, Days to Slaughter, No. of lambs born & Daughters milk. The € value beside the index represents the difference in profit that each lamb sired from this ram will have. This € value is an across breed value, so different breeds can be compared to each other.

**2) Terminal (€2.86)** – If a farmer desires a ram to breed only lambs for slaughter then they should select a ram based on this index. The bulk of this index is a combination of Lamb Survivability and Days to Slaughter. The € value beside the index represents the difference in profit that each lamb sired from this ram will have. This € value is an across breed value, so different breeds can be compared to each other.

**3) Lamb Survivability** – This ranks animals based on lambing ease and lamb survival rate. Every positive % point on this index is an extra lamb surviving to 40 days and vice versa.

**4) Days to Slaughter** – This ranks animals on their genetic ability to grow. The index associated with this trait represents the difference in the predicted number of days required for the progeny of this ram to reach the desired slaughtered weight compared with other animals of the same breed.

**5) No. of Lambs Born** – This ranks animals based on the predicted prolificacy of the females from this animal compared with other animals of the same breed.

**6) Daughters Milk** – This ranks animals based on the predicted milking performance of their daughters compared with other animals of the same breed.

## CARRAGH FOREWORD

The Carragh Flock was established in 1993 with the purchase of 8 ewe lambs from the Ballyturn flock. Over the years the flock has grown from strength to strength. Top quality stock has been purchased from top flocks in Ireland and Scotland, mainly Cairness, Muireisk, Strathisla, Solwaybank, Ewe Bank and Baileys flock. J53 X106 was purchased privately for €14,600 from the Strathisla flock, she was twice RHAS champion and was ET'd within the flock. FHT A58 was purchased from Solwaybank flock and went on to breed Carragh Unique, he won first prize in the novice class, first prize in the open ram lamb class and went on to win the reserve male champion at the national championship 2006. He was top prize ram lamb at the premium show and sale at Roscrea 2006 selling for €7,500. Carragh flock had top average that day.

The flock has enjoyed success in shows and sales, both local and countrywide. The Carragh flock was winner of the South of Ireland flock competition 2006 and 2007. Cairness Centra and Carragh Fusion were the winners of best stock rams in the same competition. The West of Ireland Club championships have been run for the last 11 years with the Carragh flock being Champion three times and Reserve three times.

2017 has been one of my best years getting Reserve Overall Champion Roscrea with Carragh Captivate sold for 2,800gns to Barrowlands and Coolamains Flock and Champion Female with HOL 173153 sold 950gns to the Master Flock.

Carragh Captivate won the Howrad Peel Cup for Best Stock Ram in the the Suffolk Sheep Society Flock Competition 2018.

We are delighted to see people doing so well with progeny from females they purchased from the Carragh Flock. Finally I would like to take this opportunity to thank those who supported me to date and wish you well with your purchased.

## **KIRRIEMUIR FLOCK HISTORY**

**Garth Graham, Kirriemuir, Ballygawley, Co Sligo F91 E8P2  
087 7993682**

We are delighted to be again presenting females at this sale for the 5th year. Thanks to Seamus for his work in organising the sale and we wish him all the best for his dispersal and a long and happy retirement.

We established the flock in 2012 and over the years have improved the bloodlines from buying from some of the top flocks in Ireland and the UK. Our stock rams have always been selected for length, carcass and good confirmation, from top genetics in Ireland and Scotland.

Our purchase of Artful Dodger from the Solwaybank Lanark Pen has proved to be a great buy. This son of the UK Sire of the Year 2023, has grown into a tremendous ram and we are offering his top two daughters. His ram lambs have all been sold, many of them selling into four figures.

We have recently purchased Shannagh Allstar, a full brother to Castleisle A Kingsman and we are looking forward to seeing how he breeds.

## REFERENCE TO SERVICE SIRES USED

### **Solwaybank Artful Dodger (successfully genotyped)**

Super excited from day one when Dodger arrived in Ireland. He was selected from the Barbour's lead pen at Lanark and was purchased privately. He is a top son of Salopian Stradale, purchased for 24K gns and a super Solwaybank female line. He has a fantastic carcass with great skin and conformation. He was only used sparingly as a lamb last year but we have most of our ewes naturally in lamb to him this year.

### **Stockton Almighty**

Edinburgh Champion 1998 purchased by the Glenho Flock for 75K gns.

In 1999 10 sons were brought to Edinburgh selling to 10K each. In 2000 70 gimmers averaged 1600 each. Great lift, bone, power and back leg to this boy.
